Dear Ms. Gardner and Ms. Rabold,

I am applying for the Front-end developer position recently posted on your website. At your convenience, I'd like to take the time to discuss my candidacy with you.

I previously worked at Tapp's Arts Center in Columbia, SC as the Social Media Coordinator. Part of my job was to create newsletters through WordPress. I quickly latched onto learning HTML, but was limited in my skillset with programming languages. I realized that my interest in coding was growing and so, I researched The Iron Yard courses available in Columbia. In February of this year I was accepted into the fully-immersive Front-End Engineering program at the Iron Yard.

My time at the Iron Yard has proved invaluable, as I have acquired an arsenal of tech skills such as HTML5, CSS, SASS, JavaScript, jQuery, Responsive Design, and more. I am also eager and open to learning more on PHP, Angular and Ember JS, plus anything the job throws my way! I have forwarded my resume and links to projects I have had the pleasure of building and working on.

Thanks so much for your consideration. I look forward to hearing from you soon!

Sincerely,

**Tori Hutto**
